

Position: Installation Engineer

Reporting to: Installation Manager/Project Manager

Salary: TBC – dependent on experience

Job type: Permanent (subject to a six-month probation period)

Holiday: 31 days including Bank Holiday (three days over Christmas mandatory)

Pension: 3% company contributions

Location: Installation sites nationwide

Guardtech are a rapidly growing, thoughtfully evolving design & build company that produce high-quality, tightly controlled manufacturing facilities (cleanrooms) across the country for the Life Science sector for industries such as Pharmaceutical, Aerospace, Automotive & Medical Device.

Guardtech manufacture offsite modules that can be shipped to project sites worldwide for rapid installation. The business is doubling in size year on year and is looking for highly dynamic, positive, driven individuals to join our team and share in our incredibly exciting journey.

Responsibilities

- Constructing controlled environments, often with modular components, including walls, ceilings, doors, windows and other structural and mechanical components as required for each project site
- Silicon sealing to an exceptionally high standard at a quick pace
- Support with construction tasks for Guardtech's manufactured products such as CleanCube and Isopod
- On-site translation of technical drawings and design pack into fully assembled, correctly installed technical facilities
- Good communication with directly employed labour, sub-contractors and suppliers
- Adherence to on-site health & safety and site maintenance
- Close liaison with Installation Manager to ensure all daily tasks set have been understood and completed in the desired timeframe
- Ensuring all projects are delivered to the highest standard and conducting continuous snagging and rectification works
- This role requires the Installation Engineer to be actively involved in the delivery of the installation – they will be required to be 'on the tools' for the entirety of their working day
- Technical understanding, attention to detail, strong work ethic and a desire to ensure the job is complete are essential for this position
- Must be willing to stay away overnight for a minimum of four nights per week (all travel and expenses paid)
